

WR-V

Bold appearance. Luxurious reality.

The all-new WR-V is Honda Motor Southern Africa's latest addition to its highly regarded Sports utility range. It exudes a trendy personality and is certain to be a winning formula. From the bold, attractive exterior design to the spacious and practical interior, the WR-V is an entry-level SUV for consumers seeking a seamless combination of style, practicality and versatility. The tech-savvy WR-V also boasts an abundance of safety, convenience and connectivity features across the two-model range, making for an exceptionally comfortable driving experience.

> Daring style

The exterior design of the all-new WR-V exhibits a compact yet confident visage, uniquely separating it from other mainstream offerings. The new WR-V features bold, distinctive styling and a sporty, agile appearance thanks to the raised stance and rugged appeal expected of a SUV.

The angle of the short, wide bonnet seamlessly integrates with the rake of the large windscreen, while slim A-pillars enhance the smooth, aerodynamic lines of the frontal design. The generous glass areas create an airy, inviting impression that emphasises the spaciousness of the cabin, while also ensuring that both front and rear occupants enjoy superb all-round visibility.

With such a classy yet economical design, you'll want to show off the latest WR-V every chance you get.

Refined luxury

Intelligent packaging

Despite its compact footprint, the WR-V looks and feels spacious inside. The interior execution focuses on intelligent packaging to deliver a spacious front and rear cabin which comfortably seats five passengers. The WR-V does not compromise on luggage capacity either, offering a generous 363 litres with the rear seats up, and an impressive 881 litres with the rear seats folded flat.

Better yet, the WR-V also incorporates Honda's ingenious "Magic Seat" system which can be configured in a number of different ways to accommodate a variety of tall and long objects.

This is the vehicle that will have customers keeping up in fast-paced cities while also accommodating everything they need for their next road trip.

Comfort and convenience

The WR-V also offers a host of comfort and convenience features aimed at making every commute enjoyable and effortless. The upholstery consists of high-quality black fabric, providing the perfect balance of comfort, support and durability. Soft-touch charcoal finishes emphasise the upmarket feel of the cabin, while silver accents add a further air of sophistication.

In terms of infotainment, the Comfort model is equipped with a user-friendly 5" LCD audio, featuring Bluetooth connectivity for hands-free telephone and audio streaming, USB connectivity and four loudspeakers. The Elegance model features a neatly incorporated 7" Touchscreen Display audio, featuring Apple CarPlay and Android Auto functionality. This intuitive system allows the driver to have the complete functionality of a smartphone at their fingertips, including app-based navigation, audio streaming and much more.

Designed for the unexpected

The WR-V comes standard with an abundance of safety features, including six SRS airbags for both the Comfort and Elegance models. Additional features include front seatbelt pretensioners, ISOFIX child seat anchors, as well as an Anti-Lock Braking System (ABS) with Electronic Brake-Force Distribution (EBD), allowing for safer vehicle control. Combined with Honda's Advanced Compatibility Engineering (ACE) body structure, which redirects energy away from passengers upon collision, customers can be confident in their safety.

Powerfully economical performance

The all-new Honda WR-V is powered by an advanced and reliable 1.2 litre four-cylinder petrol engine which employs Honda's i-VTEC intelligent valve timing management system, ensuring an optimum balance of performance and fuel efficiency.

Maximum power output is rated at 66 kW, reached at 6 000 r/min, and combined with a peak torque output of 110 Nm at 4 800 r/min. Both models are strictly available with a quick-shifting five-speed manual gearbox, achieving a combined cycle fuel consumption figure of just 6.4 litres/100 km.

* Available on Elegance models

REAR VIEW CAMERA*

Allows you to see everything behind you when you park, reducing your chances of making a mistake.

REAR BUMPER SKID PLATE

3-POINT ELR SEAT BELTS

When there's a sudden stop or collision the seat belt locks, protecting the passenger when the unexpected occurs.

ROOF RAILS & SHARK FIN ANTENNA

AIRBAGS (FRONT, SIDE AND CURTAIN)

Ensures protection no matter which seat your passengers are sitting in.

WIDE DRIVER VISIBILITY

Slim A-Pillar, large windscreen and front quarter glass

1.2L I-VTEC PETROL

66Kw @ 6000rpm
110Nm @ 4800rpm

SOLID CHROME WING GRILLE

REAR PARKING SENSORS

Produce an audible alert to let you know how much space there is between you and the nearest object.

ISOFIX CHILD SEAT ANCHORS

Securely strap your children in place in the event of a collision.

ANTI-LOCK BRAKING SYSTEM (ABS) AND ELECTRONIC BRAKE FORCE DISTRIBUTION (EBD)

Allows for more effective vehicle control during emergency braking.

SMART KEYLESS ENTRY & WALK-AWAY LOCKING*

HONDA

The Power of Dreams

Indicated CO₂ and fuel consumption figures quoted are obtained when testing the vehicle in line with the compulsory requirements of SANS 20083 and therefore may not necessarily be achieved under day-to-day driving conditions. Actual fuel consumption figures may be influenced by a range of factors, including but not limited to vehicle maintenance, driving style and behaviour. Fuel consumption may be further affected by the environmental factors and conditions under which the vehicle is operated including altitude, road condition and traffic flow. The figures used in this guide should therefore be treated as indicative only.
